BYLAWS AND OPERATING GOVERNANCE FRAMEWORK

TERRANEXA INTELLIGENCE, LLC

Geospatial Intelligence. Earth Analytics. Resilient Decisions.

Document Version: 1.0
Legal Entity: TerraNexa Intelligence, LLC
Entity Type: Limited Liability Company (LLC)
Governing Jurisdiction: State of Registration, United States of America
Effective Date: Upon approval and execution by the Members
Official Website: https://didarmurad2019.github.io/TerraNexa-Intelligence-LLC.github.io/

PREAMBLE

These Bylaws and Operating Governance Framework (the "Bylaws") establish the internal governance, management, ownership, financial accountability, data stewardship, intellectual property and strategic framework of TerraNexa Intelligence, LLC (the "Company").

The Company is established to turn geospatial, satellite, sensor and environmental data into reliable intelligence that helps organisations understand the Earth, manage natural resources, reduce risk and make resilient decisions.

The Company recognises that trustworthy Earth intelligence depends on data quality, technical rigour, responsible use of artificial intelligence, respect for privacy and clear accountability to its Members, customers and the communities affected by its work.

These Bylaws operate subject to the Company's Certificate of Formation, its executed Operating Agreement, applicable state LLC law and other legal requirements.

ARTICLE I — NAME, LEGAL STATUS AND BUSINESS IDENTITY

1.1 Official Name

The official legal name of the Company is **TerraNexa Intelligence, LLC**.

1.2 Legal Status

The Company is a Limited Liability Company organised and maintained under the laws of the state in which it is registered.

1.3 Principal Office

The principal business office shall be at the address approved by the Members or the authorised Manager.

1.4 Registered Office and Agent

The Company shall maintain a registered office and registered agent as required by applicable state law.

1.5 Duration

The Company shall continue perpetually unless dissolved under these Bylaws, the Operating Agreement or applicable law.

1.6 Business Identity

The Company may maintain its official website, trademarks, brand identity, digital platforms and business communication channels.

1.7 Limited Liability

No Member is personally liable for the debts, obligations or liabilities of the Company solely by reason of being a Member, except as provided by applicable law or an independently assumed contractual obligation.

ARTICLE II — VISION, MISSION AND CORE OBJECTIVES

2.1 Vision

To become a trusted provider of geospatial and environmental intelligence that enables resilient, sustainable and well-informed decisions about land, water, climate, infrastructure and natural resources.

2.2 Mission

To transform complex Earth-observation, geospatial and sensor data into accurate, actionable intelligence through AI-powered analytics, scalable software platforms and rigorous engineering.

2.3 Strategic Objectives

The Company shall pursue the following objectives:

1. Develop AI-powered geospatial analytics and Earth-observation products.
2. Build scalable platforms for ingesting, processing and delivering spatial data.
3. Advance environmental monitoring, including land use, vegetation, water and climate indicators.

4. Develop risk and resilience analytics for infrastructure, agriculture, energy and communities.
5. Support renewable-energy siting, resource assessment and sustainable land planning.
6. Integrate remote sensing, IoT, drones and ground-sensor data into unified intelligence.
7. Develop digital-twin and predictive-modelling capabilities for physical environments.
8. Deliver decision-support dashboards, APIs and reporting tools for public and private clients.
9. Establish partnerships with governments, utilities, research institutions and technology providers.
10. Maintain high standards of data quality, validation and reproducibility.
11. Promote responsible AI, privacy protection and ethical use of location data.
12. Support technology transfer, commercialisation and sustainable growth.

ARTICLE III — SCOPE OF BUSINESS AND COMMERCIAL ACTIVITIES

The Company may undertake lawful business and commercial activities in the following areas:

3.1 Geospatial Intelligence Platforms

Development, hosting and licensing of platforms that collect, process, analyse and visualise geospatial data at scale.

3.2 Earth Observation and Remote Sensing

Analysis of satellite, aerial and drone imagery to detect change, classify land cover and monitor environmental conditions.

3.3 Environmental and Climate Analytics

Development of models and dashboards for climate risk, water resources, vegetation health, air quality and environmental compliance.

3.4 Infrastructure and Resilience Analytics

Spatial risk assessment, asset monitoring and resilience planning for utilities, transport, urban and industrial infrastructure.

3.5 Agriculture and Natural Resources

Analytics supporting precision agriculture, forestry, water management and responsible land and resource stewardship.

3.6 Renewable Energy and Land Planning

Site-selection, resource-assessment and land-suitability analysis supporting solar, wind and other renewable-energy development.

3.7 Software, Data and API Products

Design, development, licensing and maintenance of software, datasets, APIs, algorithms and digital products.

3.8 Research, Consulting and Technical Services

Approved research, computational modelling, GIS consulting, data engineering and advisory services.

3.9 Commercial Partnerships

Lawful agreements with governments, universities, industries, utilities, data providers and other organisations.

3.10 Additional Activities

Any other lawful activity consistent with the Company's formation documents and applicable law.

ARTICLE IV — OWNERSHIP AND MEMBERSHIP STRUCTURE

4.1 Members

The owners of the Company are its Members. The identity, ownership percentage, capital contribution and membership interest of each Member shall be recorded in the Membership Register and the Operating Agreement.

4.2 Membership Interests

Each Member's interest is determined by the executed Operating Agreement and applicable state law.

4.3 Initial Ownership Register

The initial ownership structure shall be documented as follows:

Member	Ownership Interest	Capital Contribution
Member 1	To be determined	To be determined
Member 2	To be determined	To be determined
Member 3	To be determined	To be determined
Other Members	As approved	As approved

4.4 Admission of New Members

New Members may be admitted after approval under the Operating Agreement and execution of the required membership documents.

4.5 Rights of Members

Subject to applicable law and the Operating Agreement, Members may:

a. Participate in Company governance.

b. Receive financial information and approved business reports.

c. Share in distributions according to their economic interests.

d. Vote on matters reserved for Member approval.

e. Review Company records as permitted by law.

f. Take part in strategic decisions according to their governance rights.

4.6 Responsibilities of Members

Members shall:

a. Act in accordance with these Bylaws and the Operating Agreement.

b. Protect Company assets, data and confidential information.

c. Disclose relevant conflicts of interest.

d. Respect intellectual-property and data-licensing rights.

e. Fulfil agreed financial and contractual obligations.

f. Avoid unauthorised commitments on behalf of the Company.

4.7 Transfer of Membership Interests

No Member may transfer, assign, pledge or otherwise dispose of a membership interest except in accordance with the Operating Agreement and applicable law.

4.8 Withdrawal and Removal

Withdrawal, dissociation, removal, death, incapacity and related consequences are governed by the Operating Agreement and applicable state law.

ARTICLE V — MANAGEMENT AND CORPORATE GOVERNANCE

5.1 Management Structure

The Company shall operate under the management structure selected in its executed Operating Agreement, which may be:

- Manager-managed governance; or
- Member-managed governance.

The chosen structure shall be recorded in the Company's formation and governance documents.

5.2 Managing Member / Chief Executive Officer

The Members may appoint a Managing Member or Chief Executive Officer (CEO) to lead strategic and operational activities.

5.3 Manager

Where the Company is manager-managed, the Manager exercises the authority assigned under the Operating Agreement.

5.4 Management Responsibilities

Authorised executive management shall:

a. Develop and implement strategic plans.

b. Supervise business operations.

c. Manage approved commercial and technology-development activities.

d. Develop client, government and industry relationships.

e. Coordinate data-provider and technology partnerships.

f. Oversee financial and administrative operations.

g. Ensure regulatory and contractual compliance.

h. Protect Company assets, data and intellectual property.

i. Report to the Members on management and financial performance.

5.5 Appointment and Removal

Managers and executive officers are appointed, evaluated and removed according to the Operating Agreement and applicable law.

5.6 Delegation of Authority

Management may delegate operational responsibilities to authorised employees, technical leads, consultants or project managers, provided the delegation does not exceed the authority granted by the Company.

5.7 Fiduciary and Legal Duties

Managers and Members shall observe duties of loyalty, care, good faith and fair dealing to the extent required by governing law and the Operating Agreement.

ARTICLE VI — EXECUTIVE AND TECHNICAL LEADERSHIP

The Company may establish the following positions as operations expand:

6.1 Chief Executive Officer (CEO)

Responsible for strategic leadership, business development, operational direction and external representation.

6.2 Chief Technology Officer (CTO)

Responsible for technology strategy, platform architecture, AI and data engineering, and technical innovation.

6.3 Chief Operating Officer (COO)

Responsible for operations, project delivery, customer success and business processes.

6.4 Chief Financial Officer (CFO)

Responsible for financial planning, budgeting, reporting and accounting oversight, subject to approved governance arrangements.

6.5 Chief Data and Science Officer

Responsible for data governance, scientific validation, model quality and research strategy.

6.6 Technical Teams

The Company may establish teams covering:

- Geospatial data engineering.
- Remote sensing and Earth observation.
- Machine learning and AI.
- Environmental and climate science.
- Software and platform engineering.
- Cybersecurity and data protection.
- Customer solutions and consulting.

6.7 Appointment Principles

Executive appointments shall be based on professional competence, relevant experience, organisational need and approval by the appropriate governing authority.

ARTICLE VII — RESEARCH, DEVELOPMENT AND INNOVATION

7.1 Research and Development Policy

The Company shall promote innovation through structured research and technology-development activities.

7.2 Research Priorities

Research priorities include:

a. AI for Earth-observation and imagery analysis.

b. Environmental and climate-risk modelling.

c. Land-cover and change detection.

d. Water, vegetation and agricultural analytics.

e. Infrastructure and asset-risk intelligence.

f. Renewable-energy siting and resource assessment.

g. Digital twins and predictive spatial modelling.

h. Scalable geospatial data engineering.

7.3 Product Development

Research outcomes may be developed into commercial products, platforms, datasets, licensed technologies and prototypes.

7.4 Research Quality

The Company shall promote technical accuracy, reproducibility, transparent methodology and appropriate validation, including documented accuracy and uncertainty of its outputs.

7.5 Innovation Management

Major projects shall have defined objectives, deliverables, responsibilities, resources and evaluation criteria.

7.6 Commercial Readiness

Products shall undergo technical assessment, security review, performance evaluation and commercial feasibility analysis before deployment.

ARTICLE VIII — RESEARCH PARTNERSHIPS AND INSTITUTIONAL RELATIONSHIPS

8.1 Collaboration

The Company may collaborate with universities, research institutions, public agencies, data providers and industry partners on approved initiatives.

8.2 Institutional Distinction

The Company remains legally and institutionally distinct from every partner unless a formal legal arrangement establishes otherwise.

8.3 Partnership Areas

Collaboration may include:

a. Earth-observation and remote-sensing research.

b. Environmental and climate analytics.

c. Geospatial AI and machine learning.

d. Infrastructure and resilience modelling.

e. Renewable-energy and land-planning studies.

f. Data-sharing and open-science initiatives.

8.4 Written Agreements

Each collaboration shall be governed by a written agreement defining:

- Responsibilities and deliverables.
- Financial contributions.
- Intellectual-property and data ownership.
- Publication and acknowledgement rights.
- Confidentiality obligations.
- Licensing and commercialisation rights.
- Dispute-resolution arrangements.

8.5 Use of Institutional Identity

The Company shall not represent itself as a subsidiary, division or authorised representative of any institution, agency or data provider unless that relationship has been formally established.

8.6 Scientific Independence

Commercial activities shall not compromise the academic independence or research integrity of partner institutions.

8.7 Shared Resources

Any use of facilities, software, data, equipment or personnel of another organisation shall be authorised and documented.

ARTICLE IX — FINANCIAL MANAGEMENT AND ACCOUNTABILITY

9.1 Financial Administration

The Company shall maintain financial-management and accounting systems in accordance with applicable law and recognised accounting practice.

9.2 Company Bank Accounts

Company funds shall be held in accounts in the Company's legal name and operated by authorised signatories.

9.3 Sources of Revenue

Lawful revenue may include:

a. Software, platform and subscription fees.

b. Data and API licensing.

c. Analytics, consulting and engineering services.

d. Research and development contracts.

e. Government and institutional contracts.

f. Industrial partnerships.

g. Approved grants and innovation funding.

h. Other lawful business activities.

9.4 Annual Budget

Management shall prepare an annual operating and development budget for approval under the Operating Agreement.

9.5 Financial Records

The Company shall keep accurate records of:

- Revenue and expenditure.
- Capital contributions.
- Membership interests.
- Contracts and data licences.
- Assets and liabilities.
- Taxes and statutory obligations.
- Payroll and operating expenses.
- Intellectual-property transactions.

9.6 Financial Reporting

Management shall provide periodic financial reports to Members as required by the Operating Agreement.

9.7 Distributions

Profits and distributions are allocated according to the Members' economic interests and the Operating Agreement, subject to applicable law and Company obligations.

9.8 Tax Compliance

The Company shall meet applicable federal, state and local tax obligations and maintain proper tax documentation.

9.9 Financial Controls

No employee, consultant or Member shall incur unauthorised financial commitments or use Company funds for personal purposes.

ARTICLE X — INTELLECTUAL PROPERTY, DATA AND TECHNOLOGY OWNERSHIP

10.1 Intellectual Property Policy

The Company shall protect and manage the intellectual property developed, acquired or licensed in its operations.

10.2 Intellectual Property Categories

Company intellectual property may include:

a. AI and machine-learning models and algorithms.

b. Geospatial processing pipelines and analytics.

c. Software platforms, source code and APIs.

d. Derived datasets, indices and map products.

e. Digital-twin and simulation models.

f. Engineering designs and prototypes.

g. Trademarks, logos and brands.

h. Technical documentation and proprietary methodologies.

10.3 Ownership

Ownership is determined by applicable law, employment and contractor agreements, assignment documents, licences and third-party obligations.

10.4 Employee and Contractor Contributions

Employees, consultants and contractors shall sign appropriate intellectual-property agreements where required.

10.5 Pre-existing Intellectual Property

Intellectual property developed independently before joining the Company remains subject to its original ownership unless transferred or licensed in writing.

10.6 Third-Party and Open Data

Satellite imagery, third-party datasets and open data shall be used only within their licence terms. The Company shall track attribution and usage restrictions for every external dataset.

10.7 Collaboration IP

Intellectual property arising from collaboration with institutions or external researchers is governed by specific written agreements.

10.8 Commercialisation

The Company may license, sell or otherwise commercialise its intellectual property through approved arrangements.

10.9 Confidentiality

Members, employees and contractors shall protect confidential information, proprietary algorithms, source code, trade secrets and customer data.

ARTICLE XI — BUSINESS ETHICS, COMPLIANCE AND RISK MANAGEMENT

11.1 Professional Conduct

The Company shall maintain integrity, transparency, accountability and responsible business practices.

11.2 Legal Compliance

All operations shall comply with applicable federal, state and local laws, including export-control, sanctions and trade requirements where relevant.

11.3 Data Protection and Location Privacy

The Company shall lawfully collect, process, store and protect personal, commercial and technical data. Location and imagery data that could identify individuals or sensitive sites shall be handled with heightened care.

11.4 Cybersecurity

Platforms, AI systems and infrastructure shall be developed and maintained with appropriate cybersecurity safeguards.

11.5 Responsible AI

AI shall be developed and deployed with consideration of reliability, transparency, fairness, security and human oversight, and the Company shall not knowingly build products intended for unlawful surveillance or human-rights abuses.

11.6 Environmental and Social Responsibility

The Company shall promote technologies that support sustainability, environmental protection and the wellbeing of affected communities.

11.7 Conflicts of Interest

Members and managers shall disclose material personal, financial or commercial interests that could influence Company decisions.

11.8 Anti-Fraud and Anti-Corruption

Fraud, bribery, misappropriation, unauthorised payments and deceptive commercial practices are prohibited.

11.9 Risk Management

Management shall identify and address significant financial, operational, technological, legal, data and cybersecurity risks.

ARTICLE XII — EMPLOYMENT, CONSULTANCY AND PROFESSIONAL ENGAGEMENT

12.1 Personnel

The Company may engage employees, consultants, independent contractors, technical experts and professional advisers.

12.2 Recruitment

Recruitment shall be based on qualifications, experience, competence and organisational requirements, without unlawful discrimination.

12.3 Employment Agreements

Personnel shall be engaged under written agreements covering responsibilities, compensation, confidentiality and intellectual-property provisions.

12.4 Professional Development

The Company may support training in geospatial science, AI, data engineering, cybersecurity and sustainable technologies.

12.5 External Experts

The Company may engage external scientists and specialists through consultancy, collaboration or research agreements.

ARTICLE XIII — MEETINGS AND DECISION-MAKING

13.1 Members' Meetings

Members shall meet as required to consider governance, strategy, finances and reserved matters.

13.2 Annual Meeting

An annual meeting should review:

a. Business performance.

b. Financial statements.

c. Strategic development.

d. Research, product and data-quality progress.

e. Major investments.

f. Membership and management matters.

g. Future priorities.

13.3 Special Meetings

Special meetings may be called by the authorised Manager or by Members holding the rights specified in the Operating Agreement.

13.4 Notice

Meeting notice shall be given as required by applicable law and the Operating Agreement.

13.5 Quorum

Quorum is determined by the Operating Agreement and applicable law.

13.6 Voting Rights

Voting rights follow membership interests and any special voting arrangements recorded in the Operating Agreement.

13.7 Written Consents

Members may act by written or electronic consent where permitted by applicable law.

13.8 Meeting Records

Decisions, resolutions and minutes shall be documented and kept in the Company's records.

ARTICLE XIV — RECORDS, TRANSPARENCY AND REPORTING

14.1 Company Records

The Company shall maintain:

- Formation and registration documents.
- The executed Operating Agreement.
- The Membership and ownership register.
- Financial and tax records.
- Contracts and data licences.
- Intellectual-property records.
- Management resolutions.
- Annual reports.
- Regulatory and compliance documentation.

14.2 Access to Records

Members have access to Company records in accordance with applicable law and the Operating Agreement.

14.3 Annual Business Review

Management shall prepare an annual review of commercial performance, product and technology development, financial position and strategic priorities.

14.4 Confidentiality

Access to confidential information is restricted according to legitimate business need and legal obligations.

ARTICLE XV — INDEMNIFICATION AND LIMITATION OF LIABILITY

15.1 Indemnification

To the fullest extent permitted by law, the Company may indemnify its Members, Managers, officers and authorised representatives against qualifying claims and expenses arising from good-faith performance of authorised duties.

15.2 Exclusions

Indemnification does not extend to fraud, intentional misconduct, knowing violation of law or any circumstance where indemnification is prohibited by law.

15.3 Insurance

The Company may obtain business, professional-liability, cyber, directors' and officers' or other insurance as determined by management and the Members.

15.4 Limitation of Liability

The liability of Members and Managers is governed by applicable law and the executed Operating Agreement.

ARTICLE XVI — AMENDMENTS AND DISPUTE RESOLUTION

16.1 Amendments

These Bylaws may be amended by the Members in accordance with the voting requirements and procedures in the Operating Agreement.

16.2 Written Approval

Approved amendments shall be documented in writing and retained in the Company's records.

16.3 Internal Dispute Resolution

Members shall first try to resolve internal disputes through good-faith discussion and appropriate mediation.

16.4 Formal Dispute Resolution

If informal resolution fails, disputes shall be resolved under the procedures and jurisdiction established in the Operating Agreement and applicable law.

16.5 Governing Law

The Company is governed by the laws of the state in which it is organised, subject to applicable federal law.

ARTICLE XVII — DISSOLUTION AND WINDING UP

17.1 Dissolution

The Company may be dissolved upon:

a. Approval by the Members as required by the Operating Agreement.

b. An event requiring dissolution under applicable law.

c. A judicial order or other legally recognised ground.

17.2 Winding Up

Upon dissolution the Company shall undertake an orderly winding-up.

17.3 Settlement of Obligations

Assets shall be applied to liabilities and obligations in the order required by applicable law.

17.4 Distribution of Remaining Assets

Remaining assets shall be distributed to Members according to their legal and economic rights under the Operating Agreement and applicable law.

17.5 Records, Data and Intellectual Property

Records, datasets, intellectual property and other assets shall be transferred, retained, securely deleted or disposed of in line with legal requirements and contractual obligations, including data-licence terms.

ARTICLE XVIII — FINAL PROVISIONS

18.1 Supremacy of Applicable Law

These Bylaws do not override mandatory provisions of applicable LLC law.

18.2 Relationship with Operating Agreement

The executed Operating Agreement governs the Company's internal affairs and prevails over these Bylaws to the extent of any inconsistency, subject to applicable law.

18.3 Severability

If any provision is unenforceable, the remaining provisions continue in effect to the extent permitted by law.

18.4 Entire Governance Framework

These Bylaws shall be read together with the Certificate of Formation, Operating Agreement, resolutions and other governance documents.

18.5 Effective Date

These Bylaws become effective upon approval and execution by the Members, subject to applicable law.

SCHEDULE A — INITIAL MEMBERSHIP AND OWNERSHIP REGISTER

Information	Official Record
Company Name	TerraNexa Intelligence, LLC
State of Formation	To be completed
Formation Date	To be completed
Registered Agent	To be completed
Principal Office	To be completed
Member 1	To be completed
Member 1 Ownership	To be completed
Member 2	To be completed
Member 2 Ownership	To be completed
Management Structure	Member-managed / Manager-managed
Tax Classification	As determined under applicable tax law

SCHEDULE B — RESERVED MATTERS REQUIRING MEMBER APPROVAL

The following matters are reserved for approval by the Members according to the voting thresholds in the Operating Agreement:

1. Amendment of the Operating Agreement.

2. Admission of new Members.
3. Issuance or transfer of membership interests.
4. Merger, acquisition or major restructuring.
5. Sale of substantially all Company assets.
6. Dissolution or winding up.
7. Major borrowing or financial commitments beyond approved limits.
8. Material intellectual-property or data-asset transfers, or exclusive licensing.
9. Related-party transactions involving material conflicts of interest.
10. Changes to the Company's principal business activities.
11. Appointment or removal of key management positions where reserved to Members.
12. Any other matter designated as reserved in the Operating Agreement.

APPROVAL AND EXECUTION

These Bylaws and Operating Governance Framework are submitted for consideration and adoption by the Members of TerraNexa Intelligence, LLC.
